

Summary of Book

Time's Gift of Recovery

From her husband's "death sentence" through her first three years of widowhood, Judy Schreiber-Mosher's *Tincture of Time* blends passion and sadness with magical moments of the past and present until she eventually emerges with the sense of a future.

Unabashedly candid, she reveals that after the death of a loving partner the world, contrary to all indications, does not end. Rather, it transforms – in this case, due to the author's willingness to ceremonially disperse ashes around the world; learn to eat, sleep, and travel alone; and eventually date, through the aid of secret tests devised to identify another possible soul mate.

A bereavement counselor and licensed social worker, Schreiber-Mosher brings illuminating humor to a challenging passage, lighting the way for widows and widowers as well as those who love and support them.
